

PAPUA NEW GUINEA UNIVERSITY OF TECHNOLOGY

The University

The Papua New Guinea University of Technology is located in the industrial city of Lae, the second largest city in Papua New Guinea. The city of Lae has an airport with flights to any location in PNG. The University is the only technological university in the country. It has a main campus and three amalgamated colleges. The main campus has 14 academic departments including a Department of Open and Distance Learning (ODL). It offers undergraduate and graduate programs in engineering, natural and applied sciences, built environment, language and business. The university has an Information Technology Services department and a Library.

Applications are invited for the following positions:

Department of Architecture & Building

The Department of Architecture and Construction Management is offering two academic programs. A **3+2** Architecture Program with a 3-year Bachelor in Architecture that leads on to a 2-year Master in Architecture. The Department also has a **4+ 18-months** Construction Management Program with a 4-year Bachelor in Construction Management that leads on to an 18-months Master in Construction Management. The department also houses the Architecture Heritage Centre which is one of the research centres of the university.

Professor of Architecture and Professor of Building

Doctoral degrees in relevant disciplines from a recognized university are required for these positions. Successful candidates for Professorial positions will have at least 15 papers that have been published in listed, peer reviewed journals and at least 15 years of full-time university teaching experience or equivalent industrial research experience. Evidence of having guided postgraduate students is required. Familiarity with teaching in distance mode and with using learning management systems such as Google Classroom or Moodle will be an added advantage.

Associate Professor of Architecture and Associate Professor of Building

Doctoral degrees in relevant disciplines from a recognized university are required for these positions. Successful candidates for Associate Professor Positions will have at least 10 papers that have been published in listed, peer reviewed journals and at least 10 years of full-time university teaching experience or equivalent industrial research experience. Evidence of having guided postgraduate students is required. Familiarity with teaching in distance mode and with using learning management systems such as Google Classroom or Moodle will be an added advantage.

Senior Lecturer in Architecture and Senior Lecturer in Building

A doctoral degree from a recognized university is required for each of these posts. The candidate must have at least 5 papers that have been published in listed, peer reviewed journals and at least 5 years of full-time university teaching or the equivalent in industrial research work. Familiarity with teaching in distance mode and with using learning management systems such as Google Classroom or Moodle will be an added advantage.

Lecturer I/II in Architecture and Construction Management

A PhD from a recognized university in Architecture or a closely related discipline is required for this position. The candidate should have 2 years of teaching experience at the university level or have the required industrial experience acceptable to the university and must be available to teach Architecture subjects, such as design, architectural history, digital architecture and building systems. Familiarity with teaching and coordination of distance mode program and use of learning management systems such as Google Classroom or Moodle and developing curricula will be an asset. ***Younger professionals with a master degree and with some industrial working experience are encouraged to apply.***
